HIGH STANDARDS FOR HIGH EXPERIENCES

We are High Standard Technology, a leading vape hardware company based in California, USA, offering professional one-stop solutions from concept to delivery.

With our expert team spanning the USA, Canada, and China, supported by a controlled and certified manufacturing facility in China, we maintain deep involvement and oversight across R&D, OEM, ODM, and other key processes to ensure compliance with high-quality standards.

At High Standard, we are committed to transforming your ideas from initial concepts into market-ready products with efficiency and precision. Our integrated approach ensures that every stage of product development is handled with the utmost professionalism.

We build for you. We build with you. Together, we build what's next.

R&D & PRODUCTION

ONE-STOP SERVICES

Design

Innovative ID, structure, functionality and packaging design customized to bring your vision to life.

Manufacturing

World-class production in our own certified facility, managed end to end by a senior engineering team to ensure premium quality.

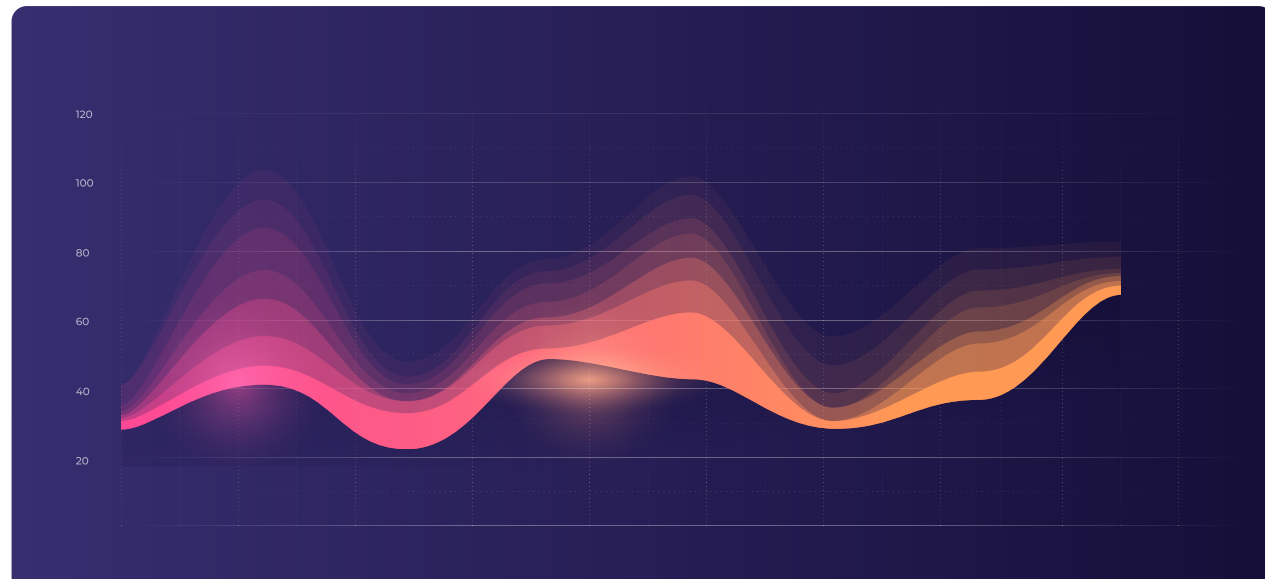

Shipment

Fast and reliable global delivery tailored to your specific requirements.

Services

From project kickoff to long-term success, our dedicated managers provide seamless support and trusted after-sales service.

Wave Tech - The Smart Heating Curve

Smart curve heating releases terpenes at the perfect temperature without burnt taste. Fully customizable temperature curves let brands deliver a unique and flawless flavor experience.

Anti-Counterfeiting Technology

Products equipped with this technology carry a secure chip with a unique ID, authenticated through the UNI-CORE SaaS system. This enables real-time verification, rejects counterfeits, and provides full traceability.

Prevent Auto-Start via Type-C Port

A physical Type-C plug blocks the circuit, preventing accidental activation during shipping, storage, or refilling. It's simple to use: just unplug to start.

ID Verification – Secure and Seamless

One-time ID and facial verification help ensure compliance, prevent unauthorized use, and keep access safe and simple.

CLASSIC COLLECTION

SMOOTH EXPERIENCE

PURE FLAVOR

RELIABLE PERFORMANCE

PRECISION. PURITY. PERFORMANCE.

GUMMY

HS 051

The new design, as slim and light as a piece of chewing gum, offers an unprecedented gripping comfort. It is compatible with 0.5 ml and 1.0 ml capacity needs and features a preheating function to ensure a smooth experience.
